

Meridian House — Site Report

Visit summary

Site visit on 14 August. Overcast conditions held through the morning, which suited the south elevation — that face is unshootable in direct sun. The exterior set below is complete; the interior set still needs a reshoot once the afternoon light is better.

Entrance

Front entrance, shot before 11am.

Hallway (needs reshoot)

Flash-lit; floor reads yellow. Redo with bounced light.
